

PARTICIPANTS NEEDED!

Do You Suffer from Knee Osteoarthritis?

We are conducting a study about transcutaneous auricular vagus nerve stimulation (**taVNS**) for pain management of knee osteoarthritis (**KOA**). This **research study** is taking place at the **Atlanta VA Healthcare System**.

To participate, you must be:

- Adult Veterans with a diagnosis of **KOA**
- Age **45-75**
- Meet all other **eligibility criteria** for the study
